HARDWARE

The in-vehicle device embedded with mobile data terminal picks up real-time data on vehicle movement from the telematics units of vehicle ECM. The display unit is scratch-resistant, and incredibly sturdy, direct the driver's on-road navigation safely and efficiently.

TXT CLOUD BASED DASHCAM

TXT Dashcam allows you to see your vehicles live on the road. The device is simple and self-install and captures video footage of the entire driving patterns like harsh braking, rapid accelerations, hard cornering, and many more.

KEY FEATURES

- High-Quality, Full HD Footage.
- Plug-And-Play Installation And Receives Power From The Vehicle's Battery.
- Withstands High Heat and Vibration.
